

Bring your brainstorm to Braxted Park – new conference and events venue opens its doors

Braxted Park, a Georgian mansion set within 500 acres, is launching as a conference and events venue. From small boardroom meetings through to large scale conferences, exhibitions and product launches, as well as seminars and presentations, Braxted Park offers versatility and flexibility to meet intricate and demanding requirements.

A successful event demands detailed and thorough planning: whether it's a decision on the type of room, choice of menu or general advice on teambuilding activities and suppliers, Braxted Park's conference managers are on hand to help choose the best option. New 21st century technology including ISDN 2 video conferencing, WiFi broadband and IP telephony facilities will ensure that events can be carried out to high specification.

Braxted Park can cater from 10 to 400 delegates with its range of versatile spaces. The Cottage is well suited to a boardroom away day – an airy and well appointed, self-

contained unit. For larger groups, the Dining Room in the main house will accommodate up to 40 people. With oak-panelled walls housing ancestral paintings, this space can work as a stand alone venue or as a complement to the main Braxted Park facility; the Ball Room. The Ball Room offers the opportunity to

accommodate up to 150 people.

An additional available space is The Pavilion, situated within the restored garden. The tailored linings and contemporary lighting allows you to create the atmosphere and mood of your choice, whether it's a conference or corporate event.

In addition, Braxted Park offers

ample parking and close proximity to motorway and airport connections.
